Portfolio: <https://christinakerr.github.io/>

Summary

Full stack web developer with a background in content marketing and technical writing. Effective at problem-solving, written and verbal communication, and collaboration.

Technical Skills

- HTML5
- CSS3
- JavaScript
- jQuery
- Bootstrap
-

Projects

COVID Road Trip | github.com/christinakerr/COVIDRoadTrip | christinakerr.github.io/COVIDRoadTrip/

- Users can input the start- and endpoints of their road trip and the application will find the current coronavirus rates of each county they'll drive through, so the user can make informed decisions about which counties to stop in.
- Worked with Mapbox Directions API to generate a route based on user input and locate each county along the route
